CALL FOR PAPERS

University of Economics, Prague (Czech Republic)

and

J. Kepler University of Linz (Austria)

have the pleasure to invite you to submit papers to the

26th Interdisciplinary Information Management Talks

held in Kutná Hora, Czech Republic

September 5th – 7th, 2018 (Wed-Fri)

During its 25 years of its history IDIMT conferences have established themselves as a truly interdisciplinary and international forum for the exchange of concepts and visions in the area of complex and/or software intensive systems, their engineering, management and application based on engineering of information and knowledge, systemic thinking, business engineering, and related topics. The increasing pervasiveness of digital systems and the corresponding importance of information as a vital resource requires the consideration of synergies in an interdisciplinary and holistic cooperation of various disciplines such as systems engineering, business management, information systems, sociology, human factors, and education.

IDIMT involves a multi-national, multidisciplinary audience in discussing up-to-date and evolving topics and issues.

The conference follows the well-established pattern of two parallel streams of sessions, each session introduced by a keynote and followed by shortened presentations of the submitted and accepted papers, their full text being included in the proceedings. At least 20 minutes are set aside at each session for a plenary discussion.

Draft versions of keynote papers for the individual topics will be available on the conference web site (www.idimt.org) by the end of March 2018 to enable participants to formulate their position papers. Submitted draft papers are reviewed by at least two independent reviewers. Final acceptance is subject to fulfilling the reviewer's suggestions and demands.

The proceedings of the Conference will be published in the Series "Informatik" of the "Universitätsverlag Rudolf Trauner, Linz, Austria" with an ISBN-number. They will be available at the start of the conference. The proceeding book is being **indexed** since 2004 **in Web of Knowledge** and since 2012 also in **Scopus**.

Submission of Papers PLANNED TOPICS

(the final allocation to session will depend on the accepted papers)

Invited Contribution: The Brave New World of ICT – Christian Loesch

Topic A: Digital Economy and Industry 4.0

Topic organizer: Petr Doucek < doucek@vse.cz >
